Pure Wines and Liquers, for Medicinal Purposes.

Physicians, Druggists and invalids have often experienced the almost impossibility of procuring a pure wine or liquer in the country, when it becomes necessary to use it for the restoration of health. The arrangements of the Graffenburg Company for the purpose of guarding against funposition and adulteration, both in Europe and this contry, are complete, and any bettle bearing their seal, may be regarded as unquestionably pure and unadulterated. In importing from New York what is presumed to be the purest article of

DR. ARNOLD'S UNION PILLS.

DR. ARNOLD'S UNION PILLS.

Guess Hill, Tenn., January 19, 1852.

Dr. Arnold-Dran Siz.—I consider it but an act of justice to yourself and the community, to state to you the very great benefit I have received from the use of your Union Pills. Having been for quita a number of years, greatly troubled with dispepsia, and constipation of the bowels; at times alarming me greatly, I used every other remedy, almost that I ever read or head of for the dissase, all without the least beneficial effect. I had almost come to the belief, that it was useless to try any more; as I labored under great debility, and my stomach was greatly injured by taking the different Pills, inchicine, &c.; but on hearing my neighbors speak so frequently of the beneficial effects of your Union Pills, I concluded to give them a trial, and bought a fifty cents vial, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost pleasure, that I have not for the last ten years felt as well, or enjoyed such good health, as I have since commencing the use of your Pills. I would take no sum for the good these Pills have done me, and almost every branch of my family have used them with the same happy effect. At times some of the negroes have had symptoms of fever—at the first complaint I have given them one or two Pills, and never had to repeat the dose but once, which effected a cure. Your other medicines used by my family, have had the most happy effect. I shall always keep a supply of your Pills on hand, and I think that no one, laboring as I have under great debility and dyspepsia, with all thei evil consequences, but what would, after a use of your medicines, join me in saying the same of them.

It has been beneficial in cases of weakness, such as Pain and Weakness in the stomach, Weak Limbs, Lameness, Affection of the Lungs in their primary stages. It destroys information by corporation

The following commendation is from an agent ing at Trenton, Tennessee. TRESTON, Gibson County, Tenn. Nov. 7, 1848.

Messrs. Scovil. & Mann-Gentlemen: The Hebrew Plaster is becoming popular in this section. There is a lady in this county who says she would not be without this Plaster for five hundred dollars a year. She was afflicted for some time with an enlargement of the spicen, which gave her a great deal of pain. The swelling and pain had extended a great deal of pain. The swelling and pain had extended up nearly to the arm-pit, and occasionally she could scarcely breathe. She was confined for a considerble time, during which she was attended by some of our best physicians, but they gave her no relief. She procured a box of the Hobrew Plaster, and it relieved her almost immidiately, and now she keeps a supply of it on hand constantly. These facts you are at liberty to use as you think proper—they are substantially true.

Respectfully, yours, &c.

THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE, DREPARED from Remost, or the Fourth Stomach of the Ox, after the directions of Earon Liebly, the great Phy-iclogical Chemist, by J. S. Houghton, M. D., Philadsiphia,

Penn.

This is a truly wonderful remedy for Indigestion. Dyspepsia, Janudice, Liver Complaint, Consumption and Debility, caring after Nature's own method, by Nature's own Agent, the Gastric Juice.

Malf a tea-spoonful of Pepsin, infused in water, will digest or dissolve two pounds of yeast beef in about two hours, out of the strongch.

Pepsin is the chief element or digesting principle of the Gastric Juice—the solvent of the food, the puritying preserving and stimulating agent of the storach and intestines. serving and stimulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox, thus forming an artificial digestive fluid precisely like the natural Gastric-Juice in its chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy stomach. It is doing wenders for dyspeptics, during cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based is in the highest degree curious and remarkable.

and remarkable.

Scientific Evidence.—Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be softened,

various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the numan stomach.

Dr. Preirs, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the rame great fleet, and describes the method of preparation. There are few higher authorities than Br. Precs.

Dr. Cembe, in his valuable writings on the "r'aysiology of Digestion," observes that "a diministion of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Prospensi." and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in Physiology, that the stomachs of animals, quaccented in water, impact to the fluid the property of dissolving various articles of flood, and of effecting a kind of artificial digestion of them in no wise different from the matural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lee & Blanchard, Philadelphia, 1845, pp. 321-2), says: "The discovery of Pepein farms a new era in the chemical history of digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive floid, prepared from Person, as it is in the natural Gastric Juice itself."

Professor Dunglison, of the Juffer on College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beamonm, on the Gastric Juice itself.

Professor Dunglison, of the Juffer on College, Philadelphia, in his great work on Human Physiology, which is in the natural digestion.

Dr. John W. Draper, Professor of Chemistry in the College of the University of New York, is his "Text Book of Chemistry," page 438, says: "It has

All modern works on Chemistry, Materia Medica and Physiology, and all good Medical Dictionaries, describe the character and projectics of Pepsin, and state many interesting death, remedients.

details respecting it.

The fact that an Artificial Digestive Fluid, or Gastrie Juice,
perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that
it has not before been applied to be cure of Indigestion and
Dyspepsia—so naturally does such a use soggestitself to the

As a Dyspepsia Curer, Dr. Roughion's Pepsin has produced the most murvellous effects, in cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cares in the limits of this advertisement; but authenticated cartificates have been given of noore than two hundred remarkable cures, in Philadelphia, New York and Bosson alone. These were nearly all decreases and the cures were nearly all decreases and the cures were nearly all decreases.

It is a great nervous antidate, and particularly useful for tendency to Bilious Disorder, layer Complaint, Fever and Ague, or badly freated Fever and Ague, and the evil effects of Quining and Mercury and other drugs upon the digestive organs, after a long sickness. Also, for excess in enting, and the too free use of ardent spirits. It almost reconciles health with intermerance.
